  Internship Trainee Mangalore, Karnataka
  – Completed a software development life cycle (SDLC) internship, gaining hands-on experience in client interaction, including understanding project requirements and anticipating client queries.
  – Developed a student registration project using the C# framework, which enabled the efficient storage and management of student information.

Projects

- **Prediction and Analysis of Cardiovascular Disease Using Machine Learning**
  Web Application for Predicting Heart Disease
  – Developed a web application to predict heart disease, utilizing various machine learning algorithms.
  – Achieved the highest accuracy with the Random Forest algorithm.
  – Built a user-friendly interface for predictions and analysis of patient health data.
  – source code can be accessed from *GitHub*.

- **Online Pet shop Management System**
  Web Application for Pet Shop
  – Built a web application for users to order pets online using HTML, CSS, and JavaScript.
  – Implemented backend functionality with PHP and MySQL for managing orders and user data.
  – Ensured efficient data storage and retrieval, enabling smooth order processing.
  – source code can be accessed from *GitHub*.
- **Colour Detection**
  Python Colour Detection Application
  Developed a Python desktop application that displays the RGB values of an image when clicked. source code available on *GitHub* for open collaboration and improvement

Technical Skills

Languages: Java, Python, JavaScript
Developer Tools:VS Code, Android Studio, LaTex, Figma ,Git, GitHub,
Fronted:HTML, CSS

Achievements

- **Paper Presentation:** Presented *"HealthGuard: Prediction and Analysis of Cardiovascular Disease Using Machine Learning"* at *DRISHTI-2024*, Vivekananda College of Engineering and Technology (VCET), Puttur.
- **Competition Wins:** 1st place in Web Design, National-level IT Fest, N.M.A.M. Institute of Technology, Nitte (2023).
- **NSS Camp:** Attended Republic Day NSS camp at Alva's College Moodabidiri(2020). Attended Annual NSS Camp at kuriya.
